

HYD-L01C-10W 3K

Garden spotlight

DESCRIPTION

The floor lamp clearly outlines the path with soft light, ensuring safe walking and skillfully dividing functional areas. Its bottom-up wall-washing light effect can better highlight the texture and three-dimensional effect of the building, endowing the space with a profound sense of layering and dramatic atmosphere. The lamp adopts an anti-glare structure and high-grade protection design, effectively avoiding glare interference and being immune to rain and dust. The embedded installation greatly saves ground space and is widely applicable to villa courtyards, commercial landscapes and public environments. It becomes a light and shadow sculptor that shapes the space's temperament in a way that "the form is unseen, only the light is visible".
