HYD-W66R GU10 WH

Wall light

DESCRIPTION

This series of wall lamps features a universal GU10 lamp base interface, allowing for the free selection and easy replacement of various types of light sources. Users can flexibly choose different light colors such as warm white, natural light, or cool white according to their needs, to achieve personalized lighting solutions. The product has an IP65 protection rating, strong weather resistance, and remains stable and reliable even after long-term outdoor use. The product emphasizes the practicality of lighting and the convenience of installation, with flexible installation methods that support surface mounting and wall hanging, meeting the application requirements of multiple scenarios such as home, commercial, and engineering.

ELECTRICAL FEATURES

Powered By	-
